Professional Summary

Skilled developer with expertise in Data Structures and Algorithms (Java), Android development, and backend technologies like Spring and JDBC. Strong leadership experience in hackathons and technical events. Passionate about competitive programming and problem-solving.

Skills

- **Technical Skills:** Android Development (Java, XML, Android Studio), Python, Data Structures & Algorithms (Java), Spring, JDBC
- **Soft Skills:** Leadership & Team Management, ProblemSolving, English Speaking

Certifications

- Android Developer Certification by [Meta](#) – [Coursera](#)
- Data Structures and Algorithms using Python – Infosys
- Hackathon Participation Certificate – Microsoft Azure

Education

B.Tech in Computer Science and Engineering

(Ongoing)

Galgotias College of Engineering and Technology

Class 12, ICSE Board

89.60%

Class 10, ICSE Board

87.20%

Projects

Newshub Application ([GitHub Repository](#))

Real-time news aggregator app with category filters and breaking news notifications.

Chatting Application ([GitHub Repository](#))

Developed a real-time chatting application supporting one-to-one and group conversations, featuring message encryption and a smooth user interface.

Voice Assistant ([GitHub Repository](#))

A Python-based AI voice assistant that executes system commands, opens folders, browses the internet (e.g., YouTube, Google), tells the time, and engages in basic conversation. Utilizes SpeechRecognition, pyttsx3, and Webbrowser for a seamless interactive experience.

Achievements

- Proficient in DSA with Java, solved over **500+ questions** on LeetCode
- Developed multiple Android projects
- Currently the **Club Head of the only Technical Club at GCET.**
- Led teams in large-scale hackathons.
- GATE qualified in first attempt.
